Admin Installation Of Equatio LTI For Brightspace D2L

Last Modified on Thursday, 28-Apr-2022 19:16:09 BST

This article will go over how to install the Equatio LTI and make it available within your Brightspace D2L instance.

Please note: This integration will require that Content-Item Message service is **enabled** for your instance, for steps on how to do this, click here.

Log in to your Brightspace instance as an Administrator, click on the gear icon in the upper right and select "Remote Plugins"

Select "New Remote Plugin" and enter the following information

Create a new Remote Plugin

Plugin Type
Name *
EquatIO
Launch Point URL * https://equatio-lti.texthelp.com
LTI Secret ProductCode SharedSecret
